[Peru]

A Case of Institutional Reinforcement and Community Involvement

Regarding the information contained in “Dossier 1: Analysis of Vulnerabilities”, we suggest carrying out the following activities in groups of around 4-6 people.

Activity 1

Bearing in mind the living conditions prevailing in the districts of Acopía and San Pedro de Cachora:

- Identify the Human Rights affected, and which are not upheld
- Identify the causes or origins of these breaches of rights
- Explain how these breaches affect the Human Rights of different segments of the population (each group will choose one segment: the elderly, women, men, children, the disabled, etc.)

Activity 2

Choose one of the vulnerabilities identified in Dossier 1, and draw up a project that will improve the management process across local stakeholders.

- Define the project's specific purpose
- Describe the target population that will benefit from the project
- Define the work strategy
- Define and programme the scheduled activities (timeline)
- Identify the institutions and/or people involved in the project
- Define the project's methodology and its assessment tools

Activity 3

Do you think that the vulnerabilities identified in Dossier 1 are also present where you live? If you think so, which of these vulnerabilities have you detected? Where and when do they occur?
